PROFESSIONAL SUMMARY

Flutter Developer with 3+ years of experience designing, developing, and deploying high-quality cross-platform mobile applications for Android and iOS using Flutter and Dart. Experienced in building scalable applications using SOLID principles, Clean Architecture, design patterns, modular architecture, and repository patterns. Strong hands-on experience with REST APIs, Firebase, SQLite, third-party SDKs and libraries, secure coding, mobile UI/UX, performance optimization, CI/CD, code reviews, debugging, and Agile development. Experienced in collaborating with designers, QA, backend developers, and cross-functional teams to deliver production-ready mobile applications and manage Google Play Store and Apple App Store releases.

CORE TECHNICAL SKILLS

Languages & Frameworks: Flutter, Dart, Kotlin, Java, Android SDK, iOS, Cross-Platform Mobile Development

State Management: GetX, BLoC, Riverpod, Provider

Architecture & Design: SOLID Principles, Clean Architecture, Modular Architecture, Repository Pattern, MVVM, Design Patterns, OOP, Data Structures & Algorithms

API & Third-Party Integration: REST APIs, JSON, Third-Party Libraries & SDK Integration, Firebase Authentication, Firebase Firestore, Firebase Cloud Messaging (FCM), Push Notifications

Databases & Storage: SQLite, Firebase Firestore, Local Storage, SharedPreferences, Secure Storage, Offline Data Handling

Security: Secure Coding Practices, Mobile Security Best Practices, Token-Based Authentication, Secure Data Storage

UI/UX: Material Design, Cupertino, iOS HIG, Responsive UI, Custom Widgets, Mobile UI/UX Best Practices

Performance & Quality: Performance Optimization, Debugging, Error Handling, Unit Testing, Widget Testing, Code Reviews, Code Quality Standards

CI/CD & Deployment: Git, CI/CD, Google Play Console, App Store Connect, Build Configuration, Release Management

Development Methodology: Agile, Scrum, Jira, Cross-Functional Collaboration

PROFESSIONAL EXPERIENCE

Flutter Developer | Octal IT Solution Sept 2024 – Present

- Design and develop scalable cross-platform Flutter applications for Android and iOS using **Flutter and Dart**, following SOLID principles, design patterns, and modular architecture.
- Build reusable components and maintain clean, efficient, and robust Flutter code to support scalable feature development.
- Integrate **REST APIs and third-party libraries/SDKs**, implementing secure token-based authentication, JSON data handling, error handling, and reliable API communication.
- Develop responsive Android and iOS interfaces following **Material Design, Cupertino, and mobile UI/UX best practices**.
- Optimize application performance by improving rendering efficiency, reducing unnecessary widget rebuilds, and resolving device-specific performance issues.
- Implement local persistence and offline functionality using **SQLite and Firebase** to provide reliable application behavior across different devices.
- Apply secure coding practices, token-based authentication, and secure data storage while integrating external services.
- Conduct **Flutter code reviews**, identify technical issues, and enforce coding standards and maintainable development practices.
- Collaborate with designers, QA engineers, backend developers, and other developers within **Agile/Scrum teams** to deliver production-ready features.
- Participate in debugging, technical issue resolution, testing, and continuous improvement of Flutter applications.
- Manage end-to-end application deployment to **Google Play Store and Apple App Store**, including build configuration, CI/CD, and release management.

Android Developer | Divisha Innovations Apr 2023 – Sept 2024

- Maintained and enhanced Android applications with a focus on performance, reliability, and mobile UI/UX.
- Implemented **background synchronization, data caching, and push notifications** to improve application reliability and user engagement.
- Refactored existing code to support evolving product requirements and improve maintainability.
- Performed debugging, application testing, and technical issue resolution across Android applications.
- Collaborated with development teams to deliver features according to project requirements and timelines.

Android Developer | DigiCoders Technologies Private Limited Jan 2022 – Apr 2023

- Developed native Android applications from scratch across the complete application development lifecycle.
- Implemented application features while following Android development and mobile UI/UX best practices.
- Performed application testing, debugging, bug fixing, and performance optimization.
- Supported application releases and ensured compliance with Google Play Store publishing requirements.

SELECTED PROJECTS

PriyStore — Flutter eCommerce Application
Flutter-based eCommerce application for designing and ordering custom-printed T-shirts and gifts.
Platforms: Android, iOS | **Technologies:** Flutter, Dart, REST APIs, State Management, Firebase
Play Store: play.google.com/store/apps/details?id=com.priystore.app
App Store: apps.apple.com/in/app/priystore/id6683312664

Gaelic Stats App — Sports Performance Application
Cross-platform sports performance application for hurling, football, and camogie teams to track and analyze match statistics.
Platforms: Android, iOS | **Technologies:** Flutter, Dart, REST APIs, Firebase
Play Store: play.google.com/store/apps/details?id=com.gaelic.stats
App Store: apps.apple.com/us/app/gaelic-stats-app/id6777976167

Aks Bus — Bus Ticket Booking Application
Mobile application for searching bus routes, comparing prices, and selecting seats for ticket bookings.
Platform: Android | **Technologies:** Flutter, Dart, REST APIs
Play Store: play.google.com/store/apps/details?id=com.devolyt.aksbus

Ten CRM — CRM Application
CRM application for sales and field teams providing centralized contact and lead management with secure access.
Platforms: Android, iOS | **Technologies:** Flutter, Dart, REST APIs, Firebase, Secure Authentication
Play Store: play.google.com/store/apps/details?id=app.ten.crm
App Store: apps.apple.com/in/app/ten-crm/id6747057834

Sports Pro — Live Sports Streaming Application
Cross-platform sports streaming application supporting live matches and replays across football, kabaddi, and other tournaments.
Platform: Android | **Technologies:** Flutter, Dart, APIs, Video Streaming
Play Store: play.google.com/store/apps/details?id=com.sports.pro

EDUCATION

Bachelor of Technology — Computer Science & Engineering | 2021 – 2024
Dr. Rizvi College of Engineering & Management, Prayagraj (Dr. A.P.J. Abdul Kalam Technical University)

Diploma — Computer Science & Engineering | 2018 – 2021
Govt. Polytechnic Madhogarh, Jalaun (Board of Technical Education, Uttar Pradesh)

ADDITIONAL INFORMATION

Languages: English, Hindi

Continuous Learning: Actively follow Flutter and Dart releases, cross-platform mobile development practices, and emerging mobile application technologies.

Development Practices: Agile/Scrum, Code Reviews, Debugging, Performance Optimization, Testing, CI/CD, Secure Coding, Cross-Functional Collaboration
